It creates opportunities and challenges for consumers, financial institutions and regulators. Big Data enables firms to better profile consumers, identify patterns of consumption and make targeted offers. This raises questions about firms' expected behaviours in order to comply with their overarching obligations. <p>15:45-17:15</p>	<p><b>Panel Discussion: The supervision of consumer protection requirements in the EU: the expectations towards the ESAs in respect of product oversight and governance, remuneration, and PRIIPS.</b></p> <p>Throughout 2015/16, EBA, EIOPA and ESMA published a number of regulatory requirements in fulfilment of their consumer protection mandates in the banking, insurance and investment sectors. These include guidelines or technical advice on product oversight and governance (POG), which require manufacturers identify target markets, carry out product testing, take remedial action, and choose appropriate distribution channels. The technical standards for the Key Information Document (KID) under the PRIIPS Regulation, in turn, are aimed at helping investors to better understand and compare the key features, risk, rewards and costs between different packaged retail and insurance-based investment products. And, finally, requirements related to sales incentives and the remuneration of sales staff are aimed at improving the links between incentives and the fair treatment of consumers, so as to reduce the risk of mis-selling and resultant conduct costs for firms.</p> <p>As these requirements are about to enter into force in 2017/18, the three ESAs would like to hear the views from industry, national regulators and consumer associations as to their expectations on how the ESAs should go about their statutory objective of bringing about supervisory convergence across the EU, for the abovementioned sets of requirements.</p> <p><b>Cyril Roux</b>, Deputy Governor (Financial Regulation), Central Bank of Ireland</p> <p><b>Monique Goyens</b>, Director General, BEUC</p> <p><b>Matthew Elderfield</b>, Group Director, Conduct, Compliance and Operational Risk, Lloyds Banking Group</p> <p><u>Moderator</u>: <b>Adam Farkas</b>, Executive Director, EBA</p>
<p>17:15-18:30</p>	<p><b>Informal get-together</b></p>
